

WCAMPWA

PUBLIC RELATIONS IN PUBLIC WORKS

2025

51st Annual Directory

The background of the entire page is a vibrant image of an American flag waving in the wind, with bright fireworks exploding in the dark night sky. The flag's stars and stripes are clearly visible, and the fireworks create a celebratory atmosphere with streaks of light and bright bursts.

**Congratulations to the WCAMPWA
on the celebration of this 51st
Anniversary**

**The Associate Members wish to congratulate the
Westchester Association of Municipal Public Works
Administrators on reaching this milestone Golden
Anniversary.**

**As is always the case, it is the people who make any
organization.**

**This year's Directory is dedicated to those hardworking
individuals, past and present, who built the Association into
the professional and progressive organization it is today...**

...People building a better tomorrow

**WCAMPWA has been giving out scholarships since 1984
and has amounted to over \$225,000 to date**

DOLF ROTFELD SCHOLARSHIP RECIPIENTS

- 2025 - Alexa Grassi - Catholic University
2024 - Matthew Satriale - Roger Williams University

WCAMPWA has established a new scholarship to honor long time member and influential leader in the engineering field in Westchester.

The Dolph Rotfeld Scholarship has been created to honor the legacy of the late Dolph Rotfeld. This scholarship recognizes Mr. Rotfeld's contributions, dedication, and longtime support of Westchester municipalities. The scholarship has a high standard and considers college juniors and seniors in civil engineering with a 3.0 GPA looking to pursue a career in Public Works.

Mr. Rotfeld epitomizes the mission of WCAMPWA as he mentored many young engineers over the years and could always be counted on to help them develop their careers. One of his primary goals was to assist municipal officials and their Public Works Departments in many communities to achieve solutions to a variety of infrastructure, sewage and drainage issues. As a member of WCAMPWA for many years, Dolph shared a bond with the Public Works Officials and had lifelong friendships with many who served in the municipalities where he worked.

A NOTE FROM THE DIRECTORY CHAIRMEN

The cover of this year's WCAMPWA Annual Advertising Directory recognizes the vital role played by the Public Works Departments in communicating with the public.

Serving as the primary link in the dialogue between government and its residents, the Public Works Departments educate the public to the various municipal services being rendered including upgrades in infrastructure, implementation of programs and schedules, the introduction of new services and the interruption or improvement of existing services.

Outreach pathways range from social media, to telecommunications, to printed information, to face-to-face conversations in the street. As with all communications, acceptance of the of the messaging is largely dependent on the mastery of both the content and conveyance.

Executed properly, each interface with a resident represents an opportunity to build a bridge of understanding, tolerance and support. Communicating at such a level requires courtesy, patience, understanding, professionalism and a keen ear.

While topics discussed may differ, the mission goals are universal: acceptance, assistance, participation and inclusion.

One could rightfully ask, "Is it Public Works or Public Relations?". However, the correct answer would be, "It is Public Relations in Public Works".

This year we tip our hats to the professionals whose skilled communications play such a pivotal role in the public's perception of the performance of local government as a whole and in doing so elevate the value of the community.

- 1986 – John A. Biros, Village of North Tarrytown

WCAMPWA's 2024 Person of The Year

Anthony R. Carr, PE, CFM Lieutenant, US Coast Guard

Public Works Leader/USCG Reserve Officer

Anthony's passion to serve the public through local government and the US military is attributed to his unwavering servant leadership philosophy of "Service before Self". Anthony is a dedicated public servant with vision and goals to improve governmental operations and public safety and welfare. He values opportunities to create positive, long-lasting impacts within the communities he serves, placing their needs as his purpose. Anthony currently serves as the Superintendent of Public Works/Village Engineer for the Village of Pleasantville, NY. Prior, he was the Chief of Operations and Public Works for the City of Norwalk, CT. Anthony also functioned as the 1st Deputy Commissioner of Public Works/City Engineer for the City of White Plains, NY. He entered the public sector in 2013 as the Village Engineer for the Village of Mamaroneck, NY. Anthony began his 23-year Civil Engineering career in the private sector with Woodard & Curran Engineering PA PC and John Meyer Consulting, PC. Anthony is the current WCAMPWA Treasurer, and a past President, Vice President and Secretary.

Anthony has been serving in the United States Coast Guard Reserve (USCGR) for approximately 9 years. He is presently a Lieutenant (O-3) assigned to the USCG Sector New York (SECNY) Intelligence Department as an Intelligence Officer. Anthony served in this role at his previous tour with the Sector Long Island Sound Intelligence Department. His first USCG position was a SECNY Incident Management Division (IMD) Officer. In May 2016, he transferred as a Lieutenant from the United States Navy Reserve to the USCGR through the Select Reserve Direct Commission (SRDC) Program. Anthony became a Commissioned Officer with the USNR Civil Engineer Corps in January 2011. He was assigned to Naval Mobile Construction Battalion (NMCB) 21 "Seabees" for approximately 6 years.

Anthony was the recipient of the 2024 New York State Society of Professional Engineers (NYSSPE) "Professional Engineer in Government" Award. He also received the following US military awards: Armed Forces Service Medal, DHS Outstanding Unit Award, USCG Commandant Letter of Commendation Ribbon, Navy/Marine Corps Achievement Medal and Coast Guard Commendation Medal. Anthony was also presented with the Mount St. Michael Academy (High School Alma Mater) 1998 Senior Award for "Excellence in Hockey".

He is a licensed Professional Civil Engineer (PE) in Connecticut, New York and Pennsylvania, and an Association of State Floodplain Managers (ASFPM) "Certified Floodplain Manager" (CFM). Anthony graduated with a Bachelor of Science (BS) degree in Civil Engineering from Clarkson University in 2002.

Anthony currently resides in the Village of Mamaroneck, NY. He was born and raised in the Bronx, NY. He is an avid hockey fan (Let's Go Rangers) and is a goaltender on several competitive ice hockey league teams. He thoroughly enjoys large quantities of food, exercise, hockey, camping, reading Stephen Covey/leadership literature & philosophizing. Anthony enjoys spending time with his Significant Other, family, friends and spoiling his French Bulldog Zoey.

RENEWING OUR PAST, BUILDING OUR FUTURE.

Ossining MMTH - Bike Shed Facility
Village of Ossining, NY

The Bike Shed Facility features eye-catching, 32-inch deep, curved glulam members that cascade into concrete piers. Underneath the roof, the shed will include an open space with e-bikes available for rent, charging stations, bike racks, and storage lockers. It will also have an enclosure with a repair shop, restroom and storage. With its close proximity to the Old Croton Aqueduct and the downtown business district, this project is part of a larger effort to make downtown Ossining more walkable and is intended to encourage more sustainable transportation and less reliance on gas-powered vehicles.

STRUCTURAL DESIGN

VP8000

The First P25 Multi-Band, Multi-Protocol, Mission-Critical Portable Radio designed for first responders and public safety. The VP8000 is a versatile, lightweight, and compact portable radio that offers superior audio clarity, extended battery life, rugged durability to stay connected in the toughest environments.

DMR Compliant

Allows for true interoperability with DMR networks used by schools, public safety agencies, local government and commercial users world-wide. Additionally, this radio can operate on both P25 wide area networks as well as our OneVoice MAX network with coverage throughout the northeast. One radio designed for multiple mission profiles.

At Goosetown Communications, we do not just say we put our customers first; we live it, every day.

From utilities to public works, we know how vital it is to have reliable group communications, access control, and video surveillance for the safety, productivity, and security of your teams and assets.

As your trusted technology partner, we will guide you at every step to ensure our solutions meet the demands of your users.

*Model 435° Mid-Sized
 Street Sweeper*

Because *swept* is not always *clean*, call TYMCO. Our Regenerative Air Sweepers blast into pavement cracks with up to a 250 mph controlled jet of air, forcing up street debris and even the finest sand and particulates into a totally enclosed system — never exhausting dirty air as do vacuum sweepers. All with only a few moving parts, reducing maintenance cost and downtime.

FROM THE PEOPLE WHO *INVENTED* REGENERATIVE AIR SWEEPING!

Upholding a 30 Year tradition, Warren manufactures Dump bodies, Trailers, and Spreaders for all your hauling needs. Let us know if we can assist you. Call 1-800-228-4842 or visit our website!

The image features the Warren logo at the top, which consists of a stylized mountain range icon above the word "WARREN" in large, bold, blue letters. Below the logo, a collection of various commercial vehicles is displayed, including a large black dump truck with its bed raised, a blue dump truck, a white dump truck, a green dump truck, a red dump truck, a white dump truck with a hoist, a white dump truck with a spreader, a white dump truck with a hoist, a white dump truck with a hoist, and a white dump truck with a hoist. The vehicles are arranged in a circular pattern around the central black dump truck. The background is a dark, gradient blue with light rays emanating from behind the vehicles.

Full line manufacturer of quality steel, stainless steel and aluminum dump bodies, dump trailers, agricultural and ice control spreaders and NTEA rated hoists

RISE TO THE CHALLENGE

It's on you to keep the world moving through winter's worst—and the last thing you need to worry about is your equipment. We've been doing this for almost 75 years, and we know what it takes to conquer the depths of winter.

That's why WESTERN builds efficiency into every feature of our snow and ice control equipment—ensuring those who rise to battle the worst winter throws at you from dusk till dawn get

MORE JOBS. DONE FASTER.

SNOW & ICE CONTROL FOR TRACTORS, UTVS, & SKID-STEERS

Winter knows no limits—and neither should you. Built to go anywhere, our equipment and machinery attachments deliver commercial-grade, trusted-by-the-pros performance wherever you need it. Because at the end of the day, it's about more than just getting the job done. It's about getting it done better and faster than everyone else.
