Dear WCAMPWA Members,

As I step into the role of President of the Westchester County Association of Public Works Administrators, I am both honored and humbled to serve alongside such a dedicated group of professionals. Our field is built on commitment, resilience, and a shared responsibility to the communities we serve, and I am proud to be part of an organization that reflects those values so strongly.

My journey in public works began as a laborer in the Village of Rye Brook, where I gained firsthand experience in the essential services that keep our communities running every day. While working as a seasonal laborer, I pursued my education, ultimately earning a master's degree in public administration. Those early experiences shaped my understanding of the importance of hard work, teamwork, and leadership at every level of our profession.

Today, I serve as the Assistant to the Superintendent of Public Works in the Village of Scarsdale. This role has allowed me to grow not only as an administrator but also as an advocate for innovation, efficiency, and collaboration in public works. Each step of my career has reinforced my belief that strong leadership is rooted in experience, continuous learning, and respect for the people who make our operations possible.

As President, my goal is to build upon the strong foundation of this Association by fostering greater collaboration among our members, supporting professional development, and encouraging the sharing of ideas and best practices. Our challenges continue to evolve, but so do our opportunities to improve infrastructure, enhance sustainability, and better serve our residents.

I look forward to working with all of you in the coming year. Together, we will continue to strengthen our profession and the communities that depend on us every day.

Thank you for your trust and support.

Sincerely,

Tyler C Seifert

President

Westchester County Association of Public Works Administrators

superintendentpublicworks@pleasantville-ny.gov

Membership:

We welcome recently approved members:

John Winter, Superintendent of Highways, Town of Lewisboro

APWA Equipment Show:

APWA annual Equipment Show is May 20th st the Rockland County Highway Department

Social Media:

Follow WCAMPWA on Instagram for updates, photos, and event announcements.

On Thursday April 9th WCAMPWA hosted a General Membership meeting with presentations from NYSDOT and Sprocket Power and Sustainable Westchester.

Our first presentation from NYSDOT highlighted the Consolidated Highway Improvement Program (CHIPS) providing important insights into recent changes, funding updates, and evolving requirements that will impact on our local infrastructure planning.

We also heard from Sprocket Power and Sustainable Westchester, who shared details on the MOVE program-an exciting initiative focused on expanding access to electric vehicle charging and supporting the transition to clean transportation in our communities.

The City of Yonkers Department of Public Works is proud to be the first in Westchester County to introduce an innovative refuse system for both above and underground.

This lifting system is equipped with a crane automated procedure for the collection of solid waste in above and underground stationary containers.

Yonkers currently has our above ground system in place up and running.

Farewell Message from outgoing President

Dear WCAMPWA Members,

I was honored to serve as president of WCAMPWA for 2025.

Last year was a very successful year and would like to thank the Executive Committee and our selected committee members for all the hard work they put in to make the group successful.

Without the support of all the volunteers our WCAMPWA group would not be as thriving as we are.

I believe we achieved most of our goals for 2025 with respect to maintaining the attention of our current members and successfully recruiting new members into the group.

We also maintained our existing monthly meeting crowd and brought more people to our monthly meeting by providing great programs and affordable pricing for our municipal employees and vendors.

I want to take a moment to acknowledge the remarkable work that the WCAMPWA group continues to do. Your dedication to excellence, innovation, and the public works profession has left an indelible mark on me and countless others.

I have no doubt that the group will continue to thrive and inspire for years to come. I ask that all the new members speak up, get involved and help make our organization the best it can be.

Thank you to all the members for your continued participation and dedication. Please do not hesitate to contact myself or any members of the Executive Committee with suggestions or input.

**Respectfully,
Stephen Ferreira, P.E.**
